Next In Line

Dead Letter Circus

I'm trying to find a way
So I keep on searching for my own space
Hoping to see the signs
I see you there, you there standing
Holding an open door
Wish I could walk on past it
I want more
Hoping to see the way you were
You started something so you'd know what the end is
With or without this feels like it's all just a game
You were standing and I see a solution
You are the problem, should I go or stay?
Trying to find a way
So I can move on and walk past open doors
I started something so I'd know what the end is
With or without the effect of a casualty
You were standing and I see a solution
Am I the problem, should I go or stay?
'Cause I'm trying to find a way
So I keep on searching for my own space
Hoping to see the signs
I see you there, you there standing
Holding an open door
Wish I could walk on past it
I want more
Hoping to see the signs
Hoping to see the way you were
This time I swear I'm gonna speak my mind
I would hold it if I could just pretend
This time I swear I'm gonna speak my mind
I would hold it if I could just pretend
This time I swear I'm gonna speak my mind
I just wanna speak my mind
I just wanna speak my mind
I'm trying to find a way
So I keep on searching for my own space
Hoping to see the signs
I see you there, you there standing
Was it worth standing?

I see too many open doors
Wish I could walk on past it, I want more
Hoping to see the way you were
I'm trying to find a way
Yes, I'm trying to find my way
