One of a Kind Love

Intro

I could be your pilot, so, come on aboard
And let me take you to another world, yeah
Just can't wait till I get to you to do all the things I know you like
Sit back and enjoy the rideThis is how we do it, when we get right down to it
Me and you, one of a kind love
That's how we do it, when we get right down to it
Me and you, one of a kind loveI don't need no other
I'm so in love I'm at the point of no return
Everyday you've shown me something new
I get so excited thinkin' of all the things that we can doYou're always on my mind, you're the one of a kind love, I
Come let me take you down to the sweetness
The love that is yours and mineThat's how we do it, when we get right down to it
Me and you, one of a kind love
That's how we do it, when we get right down to it
Me and you, one of a kind loveLet me taste your love in my way, I wanna do it all over
Until I hear a oh my, tell me if it's good to you baby
'Cause I wanna give you more, I'm willin' and able to explodeYou're always on my mind, you're the one of a kind love, I
Come let me take you down to the sweetness
The love that is yours and mine, mineThat's how we do it, when we get right down to it
Me and you, one of a kind love
That's how we do it, when we get right down to it
Me and you, one of a kind loveCome let me take you down to the sweetness
The love that is yours and mine, mineThat's how we, that's how we, that's how we do it
One of a kind love, one of a kind love
That's how we, that's how we, that's how we do it
One of a kind love, one of a kind loveThat's how we, that's how we, that's how we do it
One of a kind love, one of a kind love
That's how we, that's how we, that's how we do it
One of a kind love, one of a kind loveThat's how we, that's how we, that's how we do it
