Show Me The Place

[Leonard Cohen](#)

Show me the place where you want your slave to go
Show me the place, I've forgotten, I don't know
Show me the place for my head is bending low
Show me the place where you want your slave to go
Show me the place, help me roll away the stone
Show me the place, I can't move this thing alone
Show me the place where the word became a man
Show me the place where the suffering began
The troubles came, I saved what I could save
A thread of light, a particle, a wave
But there were chains so I hastened to behave
There were chains so I loved you like a slave
Show me the place where you want your slave to go

Show me the place, I've forgotten, I don't know
Show me the place for my head is bending low
Show me the place where you want your slave to go
The troubles came, I saved what I could save
A thread of light, a particle, a wave
But there were chains so I hastened to behave
There were chains so I loved you like a slave
Show me the place
Show me the place
Show me the place
Show me the place, help me roll away the stone
Show me the place, I can't move this thing alone
Show me the place where the word became a man
Show me the place where the suffering began
