

# You Make Me a Better Man

## Five

There's something about your eyes  
That makes me search my soul  
That make me try to realize  
I'm tryin' to be a better man  
You gotta know what's on my mind  
I will give you all my time  
Oh, I feel for you, baby, yes I do  
All I want is you And when I search my soul, I find  
A better place to be around  
I'm tryin' to tell you what's on my mind  
But will I make it through in time?  
And when I search my soul, I find  
You make me wanna be yeah, a better man I've never felt so in love  
The way I feel when you touch  
Although it doesn't sound that much  
All I have to do is look in your eyes  
You gotta know what's on my mind  
I will give you all my time  
I feel for you baby, yes I do  
All I want is you, woa And when I search my soul I find  
A better place to be around  
I'm tryin' to tell you what's on my mind  
But will I make it through in time?  
And when I search my soul, I find  
A better place to be around  
I'm tryin' to tell you what's on my mind  
You make me, wanna be yeah, a better man, alright I wanna take you higher  
I wanna reach for the sky  
I wanna show you fire  
I'll never tell you, "Goodbye"  
I wanna take you higher  
(Yea eee yea)  
I wanna reach for the sky  
(Ho yea)  
I wanna show you fire  
I'll never tell you, "Goodbye"  
(You're on my mind) And when I search my soul, I find  
A better place to be around  
I'm tryin' to tell you what's on my mind

But will I make it through in time?  
And when I search my soul, I find  
A better place to be around  
I'm tryin' to tell you what's on my mind  
You make me wanna be yeah, a better man I wanna take you  
(Alright)  
You make me wanna be yeah, a better man
