

Lay It Out

Blue Meanies

Listen up, listen in
Now you know it's easy to begin
 Drink a beer, smoke a joint
Do a line, enjoy it every timeI don't think, think you like
 Think you know you like it anyway
 Now you know, where I've been
By the stink that's coming off my skin(CHORUS)Trapped inside it
 In too far kid
 See around it
 Fire around you
 Lay your cards on the table
 And you do all you body's able
 And your body burns in the fire
Ask yourself why you are so tiredListen up, listen in
 This is an intervention
 Friends are here, family near
Overcome all of your fearTake a chance, sober up
 Laughter's fine with a strong spine
 Is it clear, start the tear
The pages of life seem unclear(CHORUS)Can you deal with all your addictions?
 Do your friends know all your afflictions?Listen up, listen in
 Now you know it's easy to begin
 Drink a beer, smoke a joint
Do a line, enjoy it every timeI don't think, think you like
 Think you know you like it anyway
 Now you know, where I've been
By the stink that's coming off my skin(CHORUS)
