

Caroline

David Gray

Caroline
Those crazy eyes that shine
The days blowing through my mind
Like falling leaves It ain't no good
I tried hard as I could
You but just won't let
My poor heart be The final war, a steel eyed dinosaur
Girl I want you more than I can say
But Caroline, it seems like every time
Honey all I get is further away The state I'm in
Got goosebumps on my skin
See the water I'll jump right in
Your heart so free I'll face the facts
Its paper on the cracks
And girl till you got you right
Back here with me The final war, a steel eyed dinosaur
Girl I want you more than I can say
But Caroline, it seems like every time
Honey all I get is further away
Honey all I get is further away The final war, a steel eyed dinosaur
Girl I want you more than I can say
Ah but Caroline it seems like every time
Honey all I get is further away
Honey all I get is further
Further, further away
