

The Missing

Ministry

The missing
He's missing, he's missing, he's missing
They took him away The last days, the sinking shunned
The last rites of what we have done
So watch yourself and watch what you say
The martyr dies, so what's at stake? He takes it for granted
His time's gonna come He's missing, he's missing, he's missing
They took him away
They took him away
They took him away Watch you
Missing, missing, missing
Missing, missing, missing
They took him away The last days the time has come
The last rites of what we've become
So watch yourself and watch what you say
The martyr dies, so what's at stake? He takes it for granted
His time's gonna come He's missing, he's, missing he's, missing
They took him away
They took him away
They took him away
