These City Streets

Paul Weller

We disappear down the tracks
The cardboard streets
In parts of townThere's just you and I alone
There's nobody else at home
And I look into your eyes
And I know why
I'm in love with youThese warm embraces
They tell their stories
Of warm embraces
Oh, These City Streets!Oh, These City Streets!But soon again
We're blown along
You know it won't take long
To find our feetThere's just you and I alone
There's nobody else at home
And I look into your eyes
And I know why
I'm in love with youI'm in love with youThese times and places
And all the faces
There's always somewhere
Oh, These City StreetsOh, These City StreetsThis warm embraces
Their tell their stories
Of warm embraces
Oh, These City Streets!Oh, These City StreetsStill got a way to go
Oh, These City Streets
Still got a way to go
These City Streets
