Road Blaster

[M83](#)

I was driving at the dawn
But everywhere I go, everywhere I go I see you
Calling love to the land
â€˜Cause anything I do, anything I do
Is about you

I was searching at the speed of sound
And I go up and down until I hit the ground

I need someone

I was falling through the universe
I went forward and reverse
To forget about you

Now you get me
Just another soul to break
Evil is God and Iâ€™m going straight to Hell
