Chemical

No One

Feel it
[Incomprehensible]It's hard to perceive
My mind is at ease
It's hard to believe
I don't feel a thingAm I wrong to feel
Such bliss that ain't real
Can I keep this from taking over meFell into this moment
Now the chemical is taking the inside right out of me
I found a mountain of pure endless energy
I keep telling myself it's not realityNow I'm seeing, now I'm seeing
That the world around me is now changing
Once it was a break that I could keep
I tried to walk away but I can'tWhat, what's inside my brain?
What's breaking me down?
What's inside this raging chemical?Now it's time for me
To rest with ease
Mow it's time
To allow my mind reliefBut I can't stop
This feeling that I need
Can I keep this from taking over me?Forget, all the regrets
As I indulge myself with every breath of this moment
Knowing I can't taste the beauty of life again
Without a chemical running through my headNow I'm feeling, now I'm feeling
That the world around me is now changing
Once it was a break that I could keep
I tried to walk away but I can't I feel itWhat, what's inside my brain?
What's breaking me down?
What's inside this raging chemical?I feel it
I see it
I need it
So bring itNever again, never again
Will I feel the same, feel the same about me
Can I begin, can I begin
To start this whole life overNever again, never again
Will I walk the same, walk the same around here
Can I forget, can I forget
That what lives within meNever again, never again
Will I breathe the same, breathe the same air in
I want to live, I want to live

But they say never, neverWhat, what's inside my brain?
What's breaking me down?
What's inside this raging chemical?What, what's inside my soul?
What's breaking me down?
What's inside this raging chemical?I feel it
I see it
I need it
