

Xanax Damage

Future

La-la, la-la
Love seein' these dreams
Oh Over and over Baby, when the sun is out, it's like I'm not myself
Xanax done damage, make it nice so I can handle it
Baby, when the moon is out, I finally know myself
Xanny pills, then I feel my body startin' to give up, yeah I only call you when I'm faded
Your arms around me, come and save me
I only want you to have my baby
When I'm drunk and I'm down and depressed
I just need to confess, yeah, yeah
Oh, oh-oh
Baby, if I want you then I know there's somethin' wrong
I don't mean to ruin all the times we had alone
But I'm not my best with you, I'm so depressed with you
But it's so hard, I don't think I can exist without you I only call you when I'm faded
Your arms around me, come and save me
I only want you to have my baby
When I'm drunk and I'm down and depressed
I just need to confess, yeah, yeah
Oh, oh-oh
Baby, when the sun is out, it's like I'm not myself
Xanax done damage, make it nice so I can handle it
Baby, when the moon is out, I finally know myself
Xanny pills, then I feel my body startin' to give up, yeah
