

Waterline

Anubis Spire

WATERLINE

You search for reasons
You're bound to fall
Too many questions
Make losers of us all

And I've grown to be resilient
Learned to see the signs
There's nothing they can do or say
I can't read between the lines

'Cause I've known love
Of almost every kind
I've been burned
Down to the waterline
Hard to believe
With all that I've been through
Nothing in my life
Prepared me for loving you

And when the winter winds
Are at your door
When youth and vanity
Can't hide you anymore

Will you dream of bright spring days
Of how it used to be
When you lay down your last night
Will you think of me?

'Cause I've known love
Of almost every kind
I've been burned
Down to the waterline
Hard to believe
With all that I've been through
Nothing in my life
Prepared me for loving you
