

Pain Killer

Gretchen Wilson

I've been pouring whiskey on your memory
I cant seem to drown this hurt inside
Bottom of the bottle leaves me empty
I need something strong to ease my mindI need a pain killer
Just one night of sleep
Someone who will hold me close
And get me over himAnd it'll taste bitter
Stranger set me free
I need a pain killer
Before this pain kills meNever thought I'd have to love another
Never been the kind to sleep around
I wish it was a pill and not a lover
Its gonna be so hard to swallow downI need a pain killer
Just one night of sleep
Someone who will hold me close
And get me over himAnd it'll taste bitter
Stranger set me free
I need a pain killer
Before this pain kills meAnd It'll taste bitter
Stranger set me free
I need a pain killer
Before this pain kills meI need a pain killer
Before this pain kills me
