

Nostalgia

[Sophie Zelmani](#)

She was my best friend
She was my best friend
We won't reach up again
We broke all our plans You got a face, a soul, a name
But if you stay, we both will go insane
Nostalgia We can't talk about old days
Every time our children play
What kind of memories
Become so such a melancholy day? You got a face, a soul, a name
But if you stay, we both will go insane
Nostalgia
You're just good for one day I tried to leave you many times
I almost succeeded once
Dreams are coming one by one
To ask me what I've done Now I hear it in the wind
When old news are coming in
She did so well without me
But I wonder if she's free You got a face, a soul, a name
But if you stay, we both will go insane
You got a face, a soul, a name
But if you stay, we both will go insane Nostalgia
You're just good for one day
Nostalgia
You're good for one day Nostalgia
Nostalgia
