

Kinetic

Tesla Rossa

Its in your movement
Its when i stand still
A real kinetic sort of appeal
Once its started its never stopping
Once its started

Who gives a damn about a critic when someone likes it
I guess i should stop preaching and start to listen

Youâ€™re sticky eardrums
The way i want more
Almost kinetic
The way my heart soars
Once its started its never stopping
Once its started

Who gives a damn about a critic when someone likes it
Hell Iâ€™m my own worst critic but i donâ€™t even get it
I guess i should stop preaching and start to listen
