

# Cocaine Lorraine

## Sour Bridges

Had me a date it was Friday night  
Cocaine Lorraine was her name  
She was the best, put on house arrest  
That kiss got her 90 days

Thelma Lou had eyes so blue  
Sweetheart, if I'd ever known  
Got down on one knee, her heart was too weak  
She's gone up to heaven long

So it goes, woah  
Get you down without even knowing  
Dust off that jar put some whiskey in there  
Wake up in the morning, gon' get stoned

They seem to mess with the worst and the best  
Diamonds in her eyes when she's gone  
Oh, Marie, what'd you do to me?  
Love me then leave me alone

If I had wings like an angel I'd watch over you  
Higher than the sweet Georgia plains  
Now you are gone, too far to see  
Now I'm just high all the time

So it goes, woah  
Get you down without even knowing  
Dust off that jar put some whiskey in there  
Wake up in the morning, gon' get stoned

So it goes, woah  
Get you down without even knowing  
Dust off that jar put some whiskey in there  
Wake up in the morning, gon' get stoned
