

Shooting Star (Stripped)

[Kari Kimmel](#)

I'm feeling higher than the sunrise
Feeling lovelier than midnight
And I wouldn't change a thing
I'm standing taller now than ever
Everything from here looks better
No, I wouldn't change a thing You can try to bring me down
To shake my soul and take my crown
I'll shine brighter, I'll shine brighter, brighter I've learned I'm a shooting star
And no one can change who we are
No one can take that away
I know that I'm good enough
And I know that I'm beautiful
And no one can take that away from me I'm feeling prettier than velvet
Soaring higher than the heavens
And I wouldn't change a thing
Look up to the sky, you'll see me
Almost feels like I am dreaming
Oh, I wouldn't change a thing Oh, they can try to bring me down
To shake my soul and take my crown
I'll shine brighter, I'll shine brighter, brighter I've learned I'm a shooting star
And no one can change who we are
No one can take that away
I know that I'm good enough
And I know that I'm beautiful
And no one can take that away from me There's no shadow hanging over me
I'm gonna live what I believe
There's no taking away
What I'm feeling at this moment
For the first time I know I'm free
I'm feeling beautiful and I can dream
And no one's stopping me Chorus (x2):
I've learned I'm a shooting star
And no one can change who we are
No one can take that away
I know that good enough
and I know that I'm beautiful
And no one can take that away from me
