

The Abyss (7" Version)

Accept

The future is predestined, the writing's on the wall
Can you see the telltale signs. The turning point has come
Here it comes

Suicide bombs exploding as missiles crack the sky
Earthquakes and tsunamis, signal the end of time
In the here, and the now
Feel the fear, it's all coming down
The world is turning, turning inside out

The world is burning, it's burning on somehow

But it's broken, it's burning, goin' up in flames!
Can we change the path we're on, somehow turn the tide
Smother the all consuming fire, before the world collides
With the here, and the now

Feel the fear, all coming down
The world is turning, turning inside out

The world is burning, it's burning on somehow

The world is turning, turning inside out

The world is burning, it's burning on somehow

But it's broken, it's burning, goin' up in flames!
Do you remember bluer skies, happy days and simpler times

Seems not that long ago

But so far away, will it ever be the same again

I Don't Think So !
Cos' it's here, and it's now

Feel the fear, all coming down
The world is turning, turning inside out

The world is burning, it's burning on somehow

But it's broken, it's burning, goin' up in flames!

Up in flames !!!
