

So Called Friend

Texas

Yeah, I'm gonna make you wonder if you're my friend
Yeah, I'm gonna make you wonder if you're my friend
Yeah, that's the way I choose them, all my friends
Do you think you're close with all your promises
Do you think I act strange when you talk to me
It's 'cause I don't hear you Yeah, I'm gonna make you wonder if you're my friend
Yeah, I may as well tell you, you'll never be my friend
Aah, that's the way I choose them, all my friends
The telephone only rings when you've got success
You only want us when we're at our best
But we don't see you, yeah It isn't our fault that your life's depressed
We've listened and we've learned
That all of the words that you say
Yeah, all of the words that you say
Mean nothing, yeah yeah yeah Yeah, I'm gonna make you wonder if you're my friend
Yeah, I'm gonna make you wonder if you're my friend
Yeah yeah yeah, oh yeah yeah yeah
Yeah, I'm gonna make you wonder if you're my friend
Yeah, I'm gonna make you wonder if you're my friend
Oh, I'm gonna make you wonder if you're my friend
