

This Fool's Life

ELAN

I don't know where we're going but I'll follow you until I get there,
you know I will. 'Cause I have no way of knowing which direction it
is going, but it shows. And it's a good thing I brought my eyes to see it happen. And it's a
good thing

I brought my eyes to see the world turn.
It only happens once in this fool's life. And I can be it
if I can see it
in the clouds.
And I can't be it
if I can't see it

in the crowd. I can feel the earth below me start to tremble before me, my heart's
beating, I must be dreaming. 'Cause I have no way of knowing which direction it
is going, but it shows. And it's a good thing I brought my eyes to see it happen. And it's a
good thing

I brought my eyes to see the world turn.
It only happens once in this fool's life. And I can be it
if I can see it
in the clouds.
And I can't be it
if I can't see it
in the crowd.
