

# Overdue

## Russ

[Hook]

I feel like this is long overdue  
You know me and I've known you too  
This liquor got me talking truth  
You got it, yeah

I feel like this is long overdue  
You know me and I've known you too  
This liquor got me talking truth  
You got it, yeah[Verse 1]

Stop playing hard to get  
I understand your pride, pride

But I want you to be my I got popping, got money and you felt that  
Wasn't in your class so you held back

Now I got little so the mouth come easily People can't speak to me Hoes twerking, cause I've been coastal  
serving

If you know, tell me who's more deserving  
Real one[Hook]

I feel like this is long overdue  
You know me and I've known you too  
This liquor got me talking truth  
You got it, yeah

I feel like this is long overdue  
You know me and I've known you too  
This liquor got me talking truth  
You got it, yeah[Bridge]

Tattoos, all over your body, let me ask you  
Did the needle hurt you more?  
Did your past dues?

They always used to laugh now I laugh too  
While we're fucking

Tattoos, all over your body, let me ask you  
Did the needle hurt you more?  
Did your past dues?

They always used to laugh now I laugh too  
While we're fucking[Verse 2]

New entry, millionaire club  
Come through, get millionaire love  
Long distance, short attention span  
You were teaching me too, I got lesson plans

You're popping, shit, I'm popping too I'm getting on, soon I'll be off for you  
I'm on tour now, so pull up when I'm stopping through  
I can fly you direct, talk in person, try to work it out  
Figure out if it's worth it  
You switch dude's more times than I switch states  
Didn't know when I was still dropping mixtapes  
Damn, I forgive you baby  
Good dick and cash is what I'll give you baby  
If I'm with you baby then I'm with you crazy  
If I want you today, I'll continue daily[Hook]  
I feel like this is long overdue  
You know me and I've known you too  
This liquor got me talking truth  
You got it, yeah  
I feel like this is long overdue  
You know me and I've known you too  
This liquor got me talking truth  
You got it, yeah
