

# Next Level

## Obey the Brave

Steps away from my goal  
on to the next level  
keep it under control  
on to the next level never laying low  
so many places to go  
never fall behind  
we live for the grind  
around the world  
always ready to ride  
just say the word  
we'll be out on the roadside  
we walk through sand and snow  
we just go with the flow  
here today  
gone tomorrow  
my life is played  
to a different tempo  
here today  
gone tomorrow  
i'll pave the way  
i will never follow  
nothing can hold me down  
slow me down  
i'm on a roll  
keep it under control  
on to the next level  
it's in my blood  
it's in my soul  
never laying low  
so many places to go  
jumping from city to city  
c'est la belle vie  
we walk through sand and snow  
we just go with the flow  
here today  
gone tomorrow  
my life is played  
to a different tempo  
here today

gone tomorrow  
i'll pave the way  
i will never follow  
steps away from my goal  
on to the next level  
go with the flowworld traveler  
a modern day rebel  
i'll push it further  
on to the next level  
go with the flow  
we stand together  
we'll make it through the struggle  
i'll push it further  
on to the next levelaround the world  
always ready to ride  
just say the word  
we'll be out on the roadside  
we walk through sand and snowwe just go with the flow  
here today  
gone tomorrow  
my life is played  
to a different tempo  
here today  
gone tomorrow  
i'll pave the way  
i will never follow  
keep it under control  
on to the next level  
never laying low  
so many places to go
