

Pumpin' Up the Party

Hannah Montana

Hey get up, get loud
Start pumpin up the party now
Hey get up, get loud
Start pumpin up the party now It's the same old, same grind
But we don't feel we're wasting time
Not so bored that we can't find a better way
My friends, my kind, no one's gettin' left behind
If they did it'd be a crime, that's why we say Let the music start a revolution
No time to play it safe Hey get up, get loud
Start pumpin up the party now
Hey get up, get loud
Start pumpin up the party now They can't, we can, parents might not understand
Havin' fun without a plan well that's what we do
We're all here, let's go, gotta make this party grow
Together we can make it blow right through the roof The music's gonna start a revolution
Too late to play it safe Hey get up, get loud
Start pumpin up the party now
Hey get up, get loud
Start pumpin up the party now We don't have to paint by numbers
Let our voice come out from under
Hear it rise, feel the thunder
It's time to lose control Hey get up, get loud
Start pumpin up the party now
Hey get up, get loud
Start pumpin up the party now
Pumpin up the party now
Party now, party now Hey get up, get loud
Start pumpin up the party now
Hey get up, get loud
Start pumpin up the party now Hey get up, get loud
Start pumpin up the party now
Hey get up, get loud
Start pumpin up the party now
