

# What You Do to Me

Leona Lewis

I see the way you look at me trying not to stare,  
I'm sitting over here, but your way over there,  
Wondering if you got what it takes to make a move,  
You know I want you too. Send a shiver down my spine,  
My body's, my body's, ting-ting-tingling,

I love the tide

My body, my body's ting-ting-tingling with fever  
Whenever I see you, fever whenever I need ya  
I'm getting hot just thinking about you,

This is what you do to me

What you do to me

Fever I can't seem to fight it,

Fever cause I think I like it.

I'm getting hot just thinking about you

This is what you do to me

What you do to me. Don't wanna make a scene but your look had got me checkin',

Every move you make, every minute, every second,

Don't know if I should tell you, or let it be a secret

But you know I can't give up. Send a shiver down my spine,

My body's, my body's, ting-ting-tingling,

I love the tide

My body, my body's ting-ting-tingling with fever  
Whenever I see you, fever whenever I need ya

I'm getting hot just thinking about you,

This is what you do to me

What you do to me

Fever I can't seem to fight it,

Fever cause I think I like it.

I'm getting hot just thinking about you

This is what you do to me

What you do to me. Fever

Your givin me fever.

Fever, Whenever I see you, fever whenever I need ya

I'm getting hot just thinking about you,

This is what you do to me,

(chorus in the back round while she sings) What your doing to me,

What your doing baby, fever

I can't seem to fight it, fever

Oh baby you know that I like,

I'm getting hot, oh baby dont you stop  
Oh your giving me a fever baby (7)x  
Fever
