

You My Flesh

Rotting Christ

flesh from my flesh
natural or unnatural guess?
even if they harm you
you can't die you my flesh, you my blood
I see the truth
when you die I'll die
I saw through your eyes
I spoke with your tongue
I name you with my name
flesh from my flesh
natural or unnatural guess?
even if they harm you, you can't die they can't harm you
they are only clouds
come with me in a higher sky
imagine your will and let it be what is this that comes from you?
the way it comes it makes me tremble like you
without movement it creeps against us
how does it dare it can't kill us
