

Every Day Is A Struggle

Senses Fail

Advisory - the following lyrics contain explicit language:

I was the chap stick in your purse, to keep you smooth
I was a finger in your throat, to keep you cute
My liver hates you for walking out on us
My kidneys drowning in a pool of a long lost love I stole your perfume to spray in my room
You will always be here So much for the past year
I poured it down the drain with all the alcohol and pain I got from
Your eyes, oh, your eyes
Im burning out my bedside, and Im rotting out my insides slowly I was the hand that held your hair back from
your face
Now I must forget the way you taste I stole your perfume to spray in my room
You will always be here So much for the past year
I poured it down the drain with all the alcohol and pain I got from
Your eyes, oh, your eyes
Im burning out my bedside, and Im rotting out my insides slowly I love you so damn much, Ill even start to pray
Ill put my faith in all your bullshit if it means youll stay
I love you so damn much, Ill even start to pray
Ill put my faith in all your bullshit if it means youll stay So much for the past year
I poured it down the drain with all the alcohol and pain I got from
Your eyes, oh, your eyes
Im burning out my bedside, and Im rotting out my inside
Im burning out my bedside, and Im rotting out my insides I love you so much, I started praying
I love you so much that I started praying
I love you so much, I started praying
I love you so much that I started praying
