# Serious

## Damien Dempsey

Go on, why don't you try it out?
I don't know, my head's filled with doubt
Ah, go on, a little bit won't hurt
When you feel the whack of it, you'll see it's well worth itGo on, give it a blast, in ten seconds flat you'll feel fantastic
Your head will be like rubber, your body like elastic
You'll be in God's arms with your thoughts all derelict
I don't know, I think it's fuckin' mad
That shit killed Anto Kelly's mom and dadAh, you're being all windy on me now
I was told you were handy when it came to a row
Fuckin' sure I am, ask anybody
I burst Paddy Lee last fuckin' SaturdayDon't be silly, man, sit down
All the boys is blasting off and they're all sound
Are you serious? Is he sound over there?
He's about to disappear into thin fuckin airAh, man, you're lettin me down
I thought you were the dirt of a lad around town
You won't get strung your first time doing it
It takes loads of times before you can't stop abusing itYour dad doesn't care, he's drunk in the bar
Seen your ma headin' off in some strange fella's car
I have been feelin really low lately
Feel the whole fuckin world is against me and they hate meThink I'll head home, I don't like this room
There's a bad smell of piss and the ceiling's peeling
Before you go, here's a freebie
Go home to your bed and you'll sleep like a baby
Ah, maybeSerious, I'm afraid
There's a devil in the shade
Serious, I am scared
There's a devil in my headGo on, man, get some of this shit into you
It's not gonna kill you," get it into ya cynthia"
And, oh, man, [Incomprehensible] of all that stuff
I seen Jem Quinn and what he's gone through in prison and allAh, man he's a fuckin eejit, he's just stupid
That wouldn't happen to you
You know, you never know, man, I seen so many around
I seen all the heads around town goin downAh, man, you're wimping out on me here
I thought you were a hard man with no fuckin fear
I am, man, I fuckin am
You saw me stickin out that O'Connor kid
I fuckin hopped off of himAh, rowin' is different, man, you know what I mean
Any fuckin [Incomprehensible], that's all Babog shit

You'll see [Incomprehensible] when you take a hitSerious, I'm afraid
There's a devil in the shade
Serious, I am scared
There's a devil in my headAngel, come and save me
Angel, come and help me
Angel, come and save me
Angel, come and help me
