

A Big Red Kite (LP Version)

Lobo

I know I owe you a better time
Then the way that I've been
But something's messing with my mind
And it's not giving in They say that I should want to be
A man who leads us all
But every time I look I see
Another leader fall. So I'm gonna sit in a green field
And fly a big red kite I'm gonna
Send my mind up the string and I'm
gonna get it right. They say that I should want to have
A big bank account
What Uncle Sam don't take from me
Man I don't need to count.
