

# Stay Beside Me (Single Version)

**Ritchie Valens**

Stay beside me, here beside me  
Stay beside me day after day  
When I'm feeling blue, let me look at you  
Oh my darling, please, won't you stay? You'll stay beside me, help and guide me  
Never, never leave me alone  
Trust and love me, be proud of me  
Let me keep your heart for my own With your love, you make me strong  
Come to me where you belong Stay beside me, close beside me  
You must know it's you I adore  
You were meant for me, you will always be  
My true love forever more
