

Thanking the Good Lord

Merle Haggard

The pieces are all falling together
The picture is coming in view
When I thought the end was upon me
I found my purpose in you And let the power that made
Help me to prosper and be fair in all things that I do
The love I've been needin' I just found in your heart
And I'm thanking the good Lord for you Yeah, I'm thanking the good Lord for you
I'm thanking the good Lord for you
Let the power that made you
Help me to prosper and be fair in all things that I do
The love I've been needin' I just found in your heart
And I'm thanking the good Lord for you I'm thanking the good Lord for you
I'm thanking the good Lord for you
Hey, let the power that made me
Help me to prosper and be fair in all things that I do
The love I've been needin' I just found in your heart
And I'm thanking the good Lord for you
