

# Where The Angels Fly

[Chris Spheeris](#)

I'd like to know the secrets of your heart  
I look into your eyes and that's a start  
Watch over you, all the moments that you are away  
It's here we'll meet between the earth and sky  
Where the angels fly

You'd like to know the secrets of my heart  
Just look into my eyes and that's a start...  
You open me to the all the colors of the night and day

It's here we'll dance between the earth and sky  
Where the angels fly

I'd like to know the secrets of my heart  
I journey deep inside and that's a start  
The mystery and miracle of love that lights the way  
It's here we'll dance between the earth and sky  
A place where every one sees eye to eye  
Where the angels fly
