Orpheus

Deadly Nightshade Botanical Society

A headless angel
a visionaries demise
what you could have told us
had we realized

Orpheus
the songs you never wrote
Orpheus
melody to change the world

The dream that lived
behind your eyes
the melodies still drift
through our minds

Orpheus
the songs you never wrote
Orpheus
melody to change the world

I you severed head
do our futures spin around
a sleeping visionary
god of sound

Orpheus
the songs you never wrote
Orpheus
Melody to change the world.
