## Deadly Nightshade Botanical Society

A headless angel  
a visionaries demise  
what you could have told us  
had we realized

Orpheus  
the songs you never wrote  
Orpheus  
melody to change the world

The dream that lived  
behind your eyes  
the melodies still drift  
through our minds

Orpheus  
the songs you never wrote  
Orpheus  
melody to change the world

I you severed head  
do our futures spin around  
a sleeping visionary  
god of sound

Orpheus  
the songs you never wrote  
Orpheus  
Melody to change the world.
