

We Are So Last Year

Hawthorne Heights

We're falling faster
This is the last year
Just a few more hours
Until we are all alone This never happens
Changing with fashion
Just a few more hours
Until we are all alone I wish I could have known you better
I should blame it on the weather
This was over from the start Does it even matter?
Our situations getting worse Sleep in
(Sleep in)
Sleep well
(Sleep well) With this life
(This life)
We're set to fail I just wanted you to know
I think about you every night
When I fall asleep You are in my dreams
And just like in a movie
The one you want to see
With a happy ending This dead letter written on black paper
It never found your eyes
Instead of love
(Instead of love)
She only saw dollar signs Sleep in
(Sleep in)
Sleep well
(Sleep well) With this life
(This life)
We're set to fail I just wanted you to know
I think about you every night
When I fall asleep You are in my dreams
And just like in a movie
The one you want to see
With a happy ending With this life
(This life)
We are set to fail I just wanted you to know
I think about you every night
When I fall asleep I just wanted you to know
I think about you every night

When I fall asleep You are in my dreams
And just like in a movie
The one you want to see
With a happy ending
