My Way to You

[Jamey Johnson](#)

Advisory - the following lyrics contain explicit language:

Settin' fires and dark desires
The nights that I just can't recall
I woke up flyin' with the angels
But no one to catch me when I fallGoin' down the wrong road and
Livin' by the wrong code and
Chasin' after dreams that don't come trueLookin' for the right signs and
Ridin' on the white lines
Just tryin' to find my way to youWell, there's been high times, and there's been hard times
And there's been times I couldn't tell
If I'm livin' a good life or livin' a bad life
'Cause I'm always livin' fast as hellGoin' down the wrong road and
Livin' by the wrong code and
Chasin' after dreams that don't come trueLookin' for the right signs and
Ridin' on the white lines
Just tryin' to find my way to youFrom an Alabama chorus
To a dirty barroom floor
Burnin' bridges down I'd never even crossedFrom when I didn't have a care
To when I didn't have a prayer
I never once thought I was lost, somehow I knew
I found my way to youGoin' down the wrong road
Livin' by the wrong code
Chasin' after dreams that don't come trueLookin' for the right signs
Ridin' on the white lines
Just tryin' to find my way to you
Tryin' to find my way to you
