

# Disappear

## Nudeswirl

Disappear

all the lies in front of fear  
she looks down he rose to her  
some tears and temper fears  
he looks down she rose to him

all the lies served you well  
its cold out disappear  
all the lies served you well  
its cold out disappear  
I still dream but I still tear  
aint exactly all that it seems but I still Dream

in a lonely temped place he got out he work through it  
some tears and temper fears  
spit from his lips cease from breathing

all the lies served you well  
its cold out disappear  
all the lies served you well  
its cold out disappear  
I still dream but I still tear  
aint exactly all that it seems but I still Dream
