

Hole In the Moonlight

Steven Page

Hole in the moonlight
Like hole in the pale green night
 Diamond of coal
 There's a hole
 Look up for the first time
 It's too bright out now to find
 Each night I must aim wrong
 Or it's gone
 Or it's gone
 What can the matter be?
 What can I do?
 Hole in the moonlight
 Where all my dreams fell through
 Hole in the moonlight
 Floats free like a small black kite
 Nature inspires then retires then retires
 Closing my eyes to see
 I watched as it grew
 Hole in the moonlight where my dreams fell through
 And that's what it'll do to you
 That's what it'll do to you
 Where all my dreams fell through
 Closing my eyes to see
 I watched as it grew
 Hole in the moonlight
 Where all my dreams fell through
 Hole in the moonlight
 Hole in the moonlight
 Hole in the moonlight
