

Looked In Too

together PANGEA

I guess you really don't care
I guess you really don't mind
There is smoke in the air
and I look in your eyes I guess you're really not scared
You could be losing your mind
But there's still smoke in the air
and I look in your eyes I looked into I looked into (x4) I guess you really don't care
I guess you really don't mind
Just the smoke in the air
and I look in your eyes I looked into I looked into (x4) I looked into I looked into (x4)
