

# My Philosophy

## Neiborhood

You know how you drive me crazy  
You know how I need you, baby  
I'm addicted to you and you're feeling me too  
Maybe, maybe, maybe  
You know how you kiss me, baby  
How you make me feel so hazy  
I'm spinning around 'cause you're telling me now  
Maybe, maybe, maybe  
My religion is the voice of your heart  
Always looking for a minimum sign  
My religion is the voice of your heart  
I really need ya, don't let me down  
Give me just a little chance  
Give me just a little time  
I've been waiting so long, all I need is your love  
Give me just a little something  
Give me just a little chance  
Give me just a little time  
I've been waiting so long, all I need is your love  
Give me just a little something  
You are my philosophy  
My beliefs, my everything  
You are my philosophy  
And I'm gonna get you, you know what I mean  
You know how you drive me crazy  
You know how I need you, baby  
I'm addicted to you and you're feeling me too  
Maybe, maybe, maybe  
You know how you tease me, baby  
How you make me feel so hazy  
I'm spinning around 'cause you're telling me now  
Maybe, maybe, maybe  
  
My religion is the voice of your heart  
Always looking for a minimum sign  
My religion is the voice of your heart  
I really need ya, don't let me down  
Give me just a little chance  
Give me just a little time

I've been waiting so long, all I need is your love  
Give me just a little something  
Give me just a little chance  
Give me just a little time  
I've been waiting so long, all I need is your love  
Give me just a little something  
You are my philosophy  
My beliefs, my everything  
You are my philosophy  
And I'm gonna get you, you know what I mean  
Give me just a little chance  
Give me just a little time  
I've been waiting so long, all I need is your love  
Give me just a little something  
Give me just a little chance  
Give me just a little time  
I've been waiting so long, all I need is your love  
Give me just a little something  
Give me just a little chance  
Give me just a little time  
I've been waiting so long, all I need is your love  
Give me just a little something  
Give me just a little chance  
Give me just a little time  
I've been waiting so long, all I need is your love  
Give me just a little something
