

# Caught Up

## Jessica Hernandez & The Deltas

Take all the money  
You can keep your lovely times  
I was left on the corner  
With my heart unsatisfied  
I've got colder playing to myself  
I came to take my things don't need your help  
Call out the orders  
With your hands all burned and broke  
On your own  
With them shoulders  
Holding all them things you broke  
You can keep what you owe me  
Just as long as i can go  
Stand apart when you told me  
What was ours was all your own  
I got caught up lying to myself  
I came to take my things don't need your help  
I got caughtup lying to myself  
I came to take my things don't need your help  
Take away the pictures  
And lock away the promises  
Creep into a funny place  
Open all the things we had before  
Take away the pictures and lock away the promises  
If the others weren't coming out  
I would stil be fighting for your time  
If the others weren't coming out  
I would still be fighting for your love  
I got caught up lying to myself  
I came to take my things don't need your help  
I got caught up lying to myself
