

# Only Survivor Was Miraculously Unharmmed

## Underoath

Someone has sewn me shut  
And tied me to a bed  
They locked me up, locked me up  
Oh, God! This is where they all  
Throw me to the wolves  
Dragged behind and trampled on  
I can't keep clawing at the jaws of hell  
The silence is killing me Nothing to calm the nerve  
Nothing to calm the nerve  
Write down my thoughts  
And read me my rights  
Repeat, repeat, repent and repeat The cycle never really ends  
Till they admit that it's real  
The cycle never really ends  
Till they admit, they admit that it's real Everything, everything is leaving me wondering  
I hate that I'm questioning everything, everything This is how it seems to me  
I've drowned myself in self-regret  
This is how I wanna be  
This can't be how I wanna be This is spinning perfect little circles  
And that's all that they know  
They just spin in perfect little circles  
And that's all that they know, all that they know [Repeat x3]  
Nothing's right, just left alone  
Sinking in will be just fine  
None of them will ever know  
None of them will ever know
