That's What They Say

The Jeff Healey Band

Well, they say you're running all over town
You gonna put me down
Well, I don't believe it
But that's what they sayThey say you're playing me for a fool
The situation ain't cool
And I should just leave it
But that's what they sayAnd they say that we should be far apart
You're break my poor heart if I stay
And I keep trying hard to ignore
But they telling me more everydayAnd I don't believe them
But that's what they say
I don't believe them
But that's what they sayAnd they say that you've been with other guys
You've just been telling me lies
About those people and places
Well, that's what they sayThey say that I should find me someone
Who won't be tempted to run
To all those handsome faces
And that's what they sayThose people talking there are my friends
They know my heart depends on you
But they keep trying to warn me each day
Girl, tell me, is what they saying is true, my dearSo tonight I'm gonna follow you around
To all those places in town
See the things that you're doing
And the games that you play'Cause I don't believe them
But that's what they say
And no, no, I don't believe them
But that's what they sayYeah, yeahYeah, yeah
That's what they say
Yeah, yeah
That's what they say
Tryin' to ignore it, baby
Yeah, yeah
That's what they say
They keep trying to make more out of her
Yeah, yeah
That's what they say
I'm blind, cheating on her
Yeah, yeah

That's what they say
