

Out of the Blue

Ash

I've feelin' broken hearted
Feelin' just like when it started
I wake, its a new day
No more heart ache breakin' our way
Out of the blue
Into the slipstream, out of the blue
Into the slipstream, out of the blue
Into the slipstream, out of the blue
Into the slipstream
Sky blue, nothin' to loose
Girl, I want to get to know you
Its come from out of nowhere
All this changing, its in the air
Out of the blue
Into the slipstream, out of the blue
Into the slipstream, out of the blue
Into the slipstream, out of the blue
Into the slipstream
Into a free fall, out of the blue
Into a dream world, out of the blue
Into the sunset, out of the blue
Into the slipstream, out of the blue
Do you feel?
What I feel?
Is it real?
Can it feel so unreal?
What I feel?
Yeah!
Out of the blue
I've feelin' broken hearted
Feelin' just like when it started
Out of the blue
Into the slipstream, out of the blue
Into the slipstream
