

Lower Your Head And Take It In The Body

[Afi](#)

Drowned in flames is where I can be found
My nose's broke from being smashed into the ground
What a waste, this place I call my home
Escape this place and break out on my own
I'm still reaching
Try to slap me down but I'll still hold
In the fray is where I can be found
My head is bruised from always being knocked around
What a fight, this life I call my own, yeah
Escape this life and break out on my own
I'm still reaching
Try to slap me down but I'll still hold
I'll hold
Escape this life and break out on my own my own
I'm still reaching
Try to slap me down but I'll still hold
I'll hold my own
Escape this life and break out on my own, my own
I'm still reaching
Try to slap me down but I'll still hold
I'll hold
I'm still reaching
