

Black Country Rock

David Bowie

Pack a pack horse and rest up here on
Black country rock
You never know, you might find it here on
Black country rockPack a pack horse and rest up here on
Black country rock
You never know, you might find it here on
Black country rockSome say the view is crazy
But you may adopt another point of view
So if it's much too hazy
You can leave my friend and me with fond adieuPack a pack horse and rest up here on
Black country rock
You never know, you might find it here on
Black country rockPack a pack horse and rest up here on
Black country rock
You never know, you might find it here on
Black country rockSome say the view is crazy
But you may adopt another point of view
So if it's much too hazy
You can leave my friend and me with fond adieuSome say the view is crazy
But you may adopt another point of view
So if it's much too hazy
You can leave my friend and me with fond adieu, ah
