Ruby Nights

Bic Runga

Ruby NightsThe last that I saw
With eyes filled with rain
A waterfall of gold
It flickered on his face
(flickered on his face)He rode to the summit
And waited at the bridge
I waved him goodbye
He vanished o'er the ridge
(vanished o'er the ridge)My face to the heavens
I waited for a sign
But only cloudy demons were circling in the sky
(circling in the sky)I cried to the river
I cried to the rain
I begged the ruby night
To bring my love again
(bring my love again)*interlude*The calling of the tune
The slowing of the sun
Into the ruby night
Again we will be one
(Again we will be one)
