Trickle

InsideInfo

Trickle down my sadness
Watch it fall and wash away
Now that I have got this far I'm leaving you
Never coming back to hear you sayMissing you has pained my day
Come to me and hear you say
All that we have gone through
Can't you see that it's enough
Fight for us don't throw it all awayIf you want me back
You won't hear me say
"Fight for us"Trickle down my sadness
Watch it fall and wash away
Now that I have got this far I'm missing you
Never coming back to hear you sayLeaving you has pained my day
Come to me and hear you say
All that we have gone through
Can't you see that it's enough
Fight for us don't throw it all awayIf you want me back
You won't hear me say
"Fight for us"If you come my way
You won't hear me say
"Fight for us, don't go away"Trickle down my sadness
Watch it fall and wash away
Now that I have got this far, I'm leaving you
Never coming back to hear you sayMissing you has pained my day
Come to me and hear you say
All that we have gone through
Can't you see that it's enough
Fight for us don't throw it all awayIf you want me back
You won't hear me say
"Fight for us"If you come my way
You won't hear me say
"Fight for us, don't go away"If you want me back
You won't hear me say
"Fight for us"If you come my way
You won't hear me say
"Fight for us, don't go away"If you come my way
You won't hear me say
