

Kingdom of Lies

Folk Implosion

Made it all up girl
Out of anger, out of passion
Turn yourself away
Make me lonely, love we only
Need a place to hide
Out of anger, out of love Turn the lights up girl
Turn your anger to conviction
All my shadows fade
They made me lonely, lies that only
Scared your heart away
Out of anger, out of love Time crawls
There's like beyond the castle walls
Go, leave
I said, I wouldn't mind, did I believe it?
This time in my kingdom of lies
In my kingdom of lies, I'm alone Time crawls
There's life outside these city walls
Go, leave
I said, I wouldn't mind, did I believe it?
This time in my kingdom of lies
In my kingdom of lies, I'm alone
