Soften Your Heart

Keith Green

So many times I've tried to tell you
But I don't think you've been listening
There's nothing I wanna try and sell you
'Cause His love is freeYou're so proud of saying you're a seeker
But why are you searching in the dark
You won't find a thing
Until you soften your heartThe message is, oh, so very simple
You gotta be like a child to see, yes
'Cause Jesus said let the little children
Come unto meYou try to make things too complicated
But you really don't have to be so smart, no
You don't learn a thing
Until you soften your heartWell, if this just this once
I could show you, your empty life
I know you would follow him right now
Well I know it sounds
Just too good to be true
But if He lives in youYou'll never die, you'll never die
You'll live forever
You'll never die, you'll never die
Take care of forever nowYou tell everyone to keep on smiling
Your outlook on life is so positive, yes
But deep down inside
You're searching for a reason to liveLike everyone else you're scared of dying
But the power of death has been blown apart
And you'll live forever
If you soften your heartYou'll never die, you'll never die
You'll live forever
You'll never die, you'll never die
Take care of forever nowYou'll never die, you'll never die
You'll live forever
You'll never die
