

# Taught Me

## Living Colour

Loading up for the one that comes  
There's no time to take a breath  
There is no time to speak  
Pack tour sheets and let it be  
Hurry up as you start to dry  
Desert leaves won't take your fault away  
Without a leak  
Better feeding howling beasts  
Let me out when it starts to sound  
And when I'll be back  
I swear it will be better  
Let me suggest the way un  
Show me the road to the edge  
Show me the best  
Sometimes it's use  
To fight alone  
Now that we are close to the end  
Show me the best  
As you said  
This fall won't taste innocence  
(And when I'll back)  
And when I'll be back  
I swear it will be better  
Hurry up as you start to dry  
And when you'll be back  
My head won't lose the bearing  
Stab me right here con my chest  
Show me the road to the edge  
Show me the best  
Sometimes it's use  
To fight alone  
Now that we're close to the end  
Show me the best  
As you said:  
"Fall down with me"  
I said:  
"YEAH!"  
I was starting to think  
That getting bad was getting old

But everybody was dressed  
With the worst of the faces  
Not even a chance  
To start with this  
It's like a stop midway in the air  
It takes guts to start from the end  
To call back your senses  
After you have been dead  
Every second with you  
Is the world at the end of the world  
Every hour spent in your café  
Every single mistake  
Every time you craved it back  
Show me the road to the edge  
Show me the best  
Sometimes it's use  
To fight alone  
Now that we're close to the end  
Show me the best  
As you said:  
"Fall down with me"  
I said:  
"YEAH!"
